

What can I do with a major in...?

Media Arts

Associate in Arts • Associate in Applied Science
School of Business and Applied Technologies

Media Arts includes animation, interactive media, web design, graphic design, audio production, digital imaging.

Some of the sample careers below might require just a few classes, an associate's or bachelor's degree. You should conduct research to find out the entry requirements of any career.

Additional training (bachelor's degree) would get students higher end jobs in supervisory positions, art direction, fine art media and high-end design positions.
