

# CERTIFICATE IN PHLEBOTOMY

(12.25 hrs.)

CIP: 51.1009

School of Health and Sciences, (505) 428-1457

This program is designed to provide students with the necessary skills for gainful employment as a phlebotomist, working under the supervision of a clinical laboratory supervisor. The phlebotomist is responsible for the proper collection, processing and testing of blood specimens and various other medical samples in accordance with OSHA safety regulations and standards. Upon successful completion of this program, the student will be eligible for application to the national licensing examination through the American Society for Clinical Pathology (ASCP).

## PROGRAM OUTCOMES

Upon completion of this program, students will be able to:

- Communicate effectively and compassionately with patients.
- Communicate effectively and professionally with medical personnel.
- Demonstrate a basic understanding of relevant human anatomy and physiology.
- Document patient data in accordance with national standards.
- Apply aseptic techniques as well as infection control methodology.
- Perform safe and proper preparation, collection and processing of specimens.

## CORE REQUIREMENTS: (12.25 HRS.)
