

# What can I do with a major in...?

## Film

Associate in Applied Science

School of Business, Education & Professional Studies

The Film program gives you the skills and opportunity to expand your vision in this discipline. The program encourages you to choose a field that may lead you to screen writing, producing, or directing; documentaries; cinematography; film festivals; editing; animation; and more. We also work with local student filmmakers to expand their skill base to be able to participate in the ever growing media industry.

*Career Opportunities:*

Academia: Teaching film studies and/or film production courses

Animator

Arts Administration: Curating film collections/screenings

Cinema Management

Digital Imaging Technician

Editing Assistant

Film Researcher/Archivist

Film Support Technician in various craft areas including but not limited to grip, electrical, art, special effects, craft service, production coordinating, assistant directing, and assistant producing

Film/Video Producer and/or Director

Journalism: Writing film reviews for print and on-line media and writing critical texts of films for publishing

Library Arts: Curating film collections/screenings

Media Planner

# What skills will I gain from...?

## Film

- Understanding the inter-relationship of film to other artistic mediums.
- Expressing yourself through the vocabulary of film language (shot types, camera moves, etc.).
- Demonstrating knowledge of structure/storytelling in film, from idea to script to production.
- Synthesizing information to construct new concepts in film and other mediums and utilize reflective skills to critique the product/process.
- Recognizing and comprehend how film can elicit emotional and intellectual responses and how those responses shape our society.
- Using current technologies to create and distribute media and film.
