

What can I do with a major in...?

Photography

Associate in Arts • Associate in Applied Arts
School of Arts & Design

Photography studies at SFCC include digital, silver, and non-silver processes. Students develop their technical skills to professional standards. All study tracts incorporate conceptual and expressive approaches to using photography as a means of communication and engagement with the world. Students develop an understanding of historical, cultural, and aesthetic perspectives in photography, in addition to learning how to critically analyze and deconstruct images.
